Dear Divya Bhandari,

We at Raising a Mathematician Foundation would like to thank you for your work towards making MENSA workshop #1 2020 a success. Thanks to your effort, 16 students from the underprivileged section of the society from Gurgaon, spent 5 weeks diving deep into Mathematics. We hope that the camp has kindled the fire for Mathematics in these young minds.

Executing the workshop online posed a new challenge this year amidst the COVID-19 lockdown. Thanks to the efforts of the team, the sessions went on without a glitch. Your role of coming in as a teaching assistant not only added value to the program but also inspired many of the participants.

We truly hope that we have the chance of working together on future projects that will help us spread the beauty of Mathematics to more students across India. We feel that our mission is not accomplished till we reach students in every corner of India. We hope you will walk with us on this mission.

Thank you once again for your time and efforts in workshop a success!
